Minimalism

Minimalism aims to reduce and limit excess, in favour of focusing on what is really important in a bid to find happiness, fulfilment, and freedom

Inspired by our take on Japanese Minimalism, the menu applies this concept to our drinks, highlighting the essence of every element.

Each cocktail is a perfect balance of minimal ingredients, where the flavours complement each other, creating the perfect flavour profile

The concept behind this philosophy allowed us to go beyond the drink itself, to create an experience that will stimulate all your senses, to make you feel at peace, and to create memories

Inspired by Japanese ingredients, every single cocktail is a twist on a classic where the name given to them is the predominant Japanese flavour
